

# CEEC

THE FUTURE

CEEC is sponsored by

## 2012 CEEC Medal

CEEC's vision is to accelerate implementation of eco-efficient comminution strategies through promotion of supporting data and industry benefits.

CEEC's mission and objective is to raise awareness of research findings, alternative comminution strategies and installed outcomes. CEEC also aims to accelerate information, knowledge and technology transfer with the objective of achieving lower processing costs and reduced carbon footprint as a result of improved comminution practices.

### Purpose of the Award

The CEEC Medal will celebrate and recognise the contribution of outstanding research and field work on beneficial strategies for Comminution, as stated in CEEC's Mission and Objective.

The Award will contribute to raising the status of beneficial comminution strategies by:

- recognising and celebrating individuals or teams who make an outstanding contribution in daily operations of beneficial comminution strategies.
- recognising individuals or teams who contribute to building the global knowledge of beneficial comminution practices by sharing examples of best practice and leadership in comminution and inspiring similar excellence in others.
- recognising those who build greater awareness and understanding in the wider community of the benefits of knowledge transfer in the area of comminution and energy savings.
